

## Your Question - What would my work week look like, if:

- my internet connection worked more times than not?
- my computer always ran fast and smoothly?
- I could quickly and easily retrieve your files and emails?
- I knew how to get unstuck when my computer just...f r e e z e s?

## Our Answers - In Four Training Sessions:

- Surviving Technical Support Calls
- Mastering Your Media for Easy Retrieval
- Web Browsing: Protection from the Bad Guys
- Defeating the Blue Screen of Death

### Added value?

Hardcopy how-to manual, quick reference sheets and tips & tricks from each session!

*Every business needs its staff to operate productively and efficiently with your computer.*

*"Since I found Julie, my computer doctor, I always have reliable help with any technical problem big or small. She knows how to fix it as soon as possible. Don't hesitate to call her anytime."*

**Barbara Goldstein**

*"During my role as Manager it was my distinct pleasure to be associated with Ms. Julie Tennyson. Julie was on our technical support team and provided a very critical service, supporting an office of twenty five (25) highly technical individuals."*

**Hubert E. Broome, P. E.**

*"I was a professional engineer at the Florida Department of Transportation, Engineering CADD Systems Office.*

*Her support was outstanding.*

*Instead of fixing problems, her goal was to prevent the problem in the first place. She met her deadlines, and worked the hours needed to handle unusual tasks."*

**Warren G. Clary, P. E.**

The solution...your computer whisperer!

*Responsive & Reliable Computer Services*
